

Hand Held Salinity Refractometer VBS1T & VBS2T

- Durable
- Compact size, fast and easy measurements
- Automatic temperature compensation
- Can achieve high precision
- Easy to calibrate

There are two models for measures concentration of dissolved salt in fluids.

Model	Range	Resolution
VBS1T	Salinity: 0 to 100 ‰ (ppt) specific gravity: 1.000 to 1.070 nD Brix : 0 to 10%	1 ‰ 0.001 nD 0.1%
VBS2T	Salinity: 0 to 28% Brix: 0 to 32%	0.2% 0.2%
